

# TRU-VU™ Customizable Industrial LCD Monitors

When consumer-grade, mass-produced monitors can't meet your needs, turn to **TRU-VU™** Monitors for the features and performance your project requires. Our customizable industrial-grade LCD monitors offer you many advantages:

- Built with industrial-grade components to ensure rugged, long-term performance and 24/7/365 operation
- Grade-A LCD panels ensure exceptional image quality, increased brightness, and wider viewing angles (to 178°)
- Wide range of monitor styles, sizes and configurations
- Monitors can be customized with the size, features and performance you need. We can also custom-build monitor solutions from scratch!
- Can be private-labeled with your company name, logo and model number
- Monitor design, support, inventory and service located here in the USA
- 3-Year Warranty

*No other LCD monitor company can provide you with all of these benefits, as well as our prompt, personalized service. An overview of our extensive product offering is listed below. Let us know how we can best serve you.*

## Industrial-Grade LCD Monitors
