

Hydrovane Warranty Fluid

Protect your investment with genuine Hydrovane lubricants

Compressor fluids are not typically a topic of everyday conversation, but nonetheless its importance needs to be recognized since the fluid's functions have a direct impact on the ownership cost of your compressor. Fluid is the lifeblood of a compressor and enables it to run at maximum efficiency and reliability, resulting in a reduction of production costs.

While it's important to understand the overall general need for fluids, it's equally important to understand the complete picture and that there are different formulas designed to match compatibility with each rotary vane compressor. Hydrovane Fluids have proven that they can reduce energy consumption, MRO costs, waste disposal costs and also reduce lost productivity due to extended equipment downtime – all of which affect your bottom line.

Hydrovane® Fluids have proven that they can reduce energy consumption, MRO costs, waste disposal costs and also reduce lost productivity.

Hydrovane warranty lubricants formulated for specific applications and environments:

CS-300

CS300 is a diester based lubricant, the standard lubricant in hydrovane Rotary Vane Compressors, except the RS compressor at 150 psi units. CS300 offers superior condensate separation and performs over a wide temperature range.

CSS-30

CSS-30 is a food grade lubricant specifically formulated to maximize the efficiency and lifespan of rotary vane compressors. CSS-30 is non-toxic

Proper fluids are crucial in maintaining the performance and efficiency of your compressor. We, at John Henry Foster, want to provide you with the tools and information necessary to ensure your compressors are getting the attention they need to perform at full capacity.

For more information, contact our Compressor Parts Department at 800-582-5162 or 651.681.5739 or email Compressor Parts

John Henry Foster (JHFoster) is a leading distributor and service provider for automation and compressed air systems. Our mission is to assist companies like yours automate their manufacturing applications to make the process a positive journey. We are committed to providing successful solutions that exceed production demands, reduce costs, and increase overall efficiencies.

Headquartered in Eagan, MN, with a location in Fargo, ND, we also offer a fully-equipped team of mobile technicians that provide service to the 5-state area. Contact us today at 800.582.5162 or jhfooster.com to learn more about how you might benefit from knowing us.
