

All the performance

- Cost Effective
- User Friendly
- Low Maintenance
- Energy Efficient
- Sustainable Manufacturing
- Greater Productivity
- Technical Support - on-site assistance
- Easy to use software
- Reliable

IAI America, Inc. is the **WORLD LEADER** in electrical linear actuators and SCARA Robots.

- Source: Fuji Research Institute (2006)

A compact robot that is **easy to use** yet highly functional

High-performance tabletop robot available at an **amazing low price!**

Types:	Gate & Cantilever
Stroke:	1.9 in (50mm) - 15.7 in (400mm)
Axis:	2 & 3
Maximum Speed:	11.8 inches per second
Load Capability:	5 lbs (kg) - 22 lbs (kg)
Positioning repeatability:	± 0.000787 inches (0.02mm)
Registered position:	up to 3,000
Supporting networks:	DeviceNet CC-Links Profibus Ethernet

Table Top TT

Why choose IAI?

Complete System Solutions

Instead of building a robotics system from scratch, design engineers can purchase complete fully-functional units from IAI and begin production sooner.

Easy Integration and Compatibility

IAI's straightforward programming language and pre-formatted products make it easy to integrate IAI products with other components. You'll be up and running in no time.

Excellent Support

There are three offices in the U.S. and teams of expert technicians standing by to answer your questions and solve your problems. Spare parts are stocked in both the Torrance, CA and Itasca, IL offices and are available for immediate shipment. You can even download CAD drawings from IAI's website. www.intelligentactuator.com

Fast Delivery

Most parts and miscellaneous items are available for immediate shipment. Delivery of standard products built to your needs are within four to six weeks.

Cost Saving and Eco Friendly

Buying energy efficient IAI actuators are more cost-effective than building your own, they save on energy costs and put your project into production sooner.

Value

Our products provide the best price-to-quality value on the market and with energy saving features, easy to use software and easy set up, IAI is a must for your automation needs.
