

# THANK YOU for your recent compressed air equipment purchase!

How are you planning on protecting your investment?

Let our team of experts guide you through the next steps of ensuring that you stay within warranty and up-to-date on maintenance.

1

## Preventative Service Protection Program

Knowing your equipment and hours run, we schedule maintenance throughout the year to best service you.

We are available 24-hours, 365 days a year. You'll receive factory-trained service techs every time and genuine parts throughout the year to help you stay within warranty standards. If necessary, you will receive Priority Status for emergency and same-day service helping you stay focused on your business, not maintenance.

2

## Parts Program

We manage the ordering process of your genuine parts such as intake filters, oil filters, lubricants, and air/oil separators and track when they need to be replaced.

We provide only high-quality factory parts from our in-stock inventory of over \$4M and are available for support and questions as they come up. We want to make sure your equipment is up to warranty standards and running at peak performance, thereby reducing costly downtime and lost productivity.
