

# The DIFFERENCE between Genuine Quincy parts and generic parts goes well beyond price ...

## IT'S CALLED QUALITY.

You wouldn't put generic oil and parts in your car and trust them to last.  
Why would you treat your compressed air system any different?

Quincy

## PERFORMANCE

John Henry Foster's team of service technicians bring over 200 years of experience and are all factory-trained on Quincy

# PERFORMANCE

## **QUINCY COMPRESSOR INTAKE FILTERS**

Pleated design greatly increases air filter surface area

- Reduced pressure drop
- Filter efficiency of over 97%

## **QUINCY COMPRESSOR OIL FILTERS**

Proprietary filter design

- 30 - 50% greater filter medium surface area
- High efficiency rating

## **QUINCY COMPRESSOR AIR/OIL SEPARATORS**

Proprietary filter media designed for air compressors

- Reduced pressure drop
- 99.999% efficiency to 0.3 micron
- Extends separator useful life

## **QUINCY COMPRESSOR FLUID LUBRICANTS**

Formulated specifically for rotary screw air compressors

- Superior lubrication
- Up to 12,000 hour operational life
- High resistance to varnish

**#2**

Quincy

## RELIABILITY

When it comes to reliability, quality Quincy parts and fluids ensure optimal performance to keep your equipment running at peak performance thus reducing costly downtime

# RELIABILITY

## QUINCY COMPRESSOR INTAKE FILTERS

Rugged metal reinforcing of element

- Ensure leak-free operation
- Reduce the possibility of puncture or collapse

## QUINCY COMPRESSOR OIL FILTERS

Higher pressure performance rating due to thicker shell

- Reduce the possibility of puncture or collapse

Leak tight filter element design

- Inner seal prevents bypassing of oil filter element

## QUINCY COMPRESSOR AIR/OIL SEPARATORS

Rugged metal reinforcing of element

- Reduce the possibility of puncture or collapse

Designed to eliminate static electricity build up

- Reduce the risk of fire internally

## QUINCY COMPRESSOR OIL LUBRICANTS

Extensive field testing

- Lubricants tested in thousands of air compressors

Formulated for increased lubricant stability

# #3 **TRUST**

Quincy

You can trust John Henry Foster to provide only high-quality factory Quincy parts from our in-stock of over \$4M inventory.

John Henry Foster is your trusted single source for all your genuine parts and service needs. Our goal continues to be our dedication to provide customers with the highest quality, up-to-date products available on the market today.

If you choose to use JHF for parts or service, you can count on our commitment to uphold the following standards, as we have throughout the past 70 years.

- To provide only high-quality factory parts from our in-stock of over \$2M inventory.
- That our team of service technicians bring over 200 combined years of experience and are all factory-trained.
- To ensure that our work is fully backed up with the knowledge that it's done right the first time.

Please contact us to learn more about our comprehensive maintenance programs that support our clients with increased reliability, less downtime and fewer emergencies.

ADDRESS SERVICE REQUESTED

John Henry Foster is dedicated to serving our clients with the most cutting-edge products available on the market today. With over 80 years of experience, we are one of the Midwest's leading compressed air systems distributors and service providers and are uniquely qualified to assist our clients from design to build. We provide both capital and pneumatic components consultatively, allowing us to partner with both the supply and demand sides of compressed air systems.

Our team of experts provides customized solutions that impact our clients' consistency, reliability and profitability, while continuing to demonstrate our knowledge of the latest industry trends and solutions. Headquartered in Eagan, Minn. with a facility in Fargo, N.D., John Henry Foster employs over 125 technical, service and professional staff.
