

PRESCRIPTIVE REBATES AVAILABLE FOR MIST ELIMINATORS

COMPRESSED AIR MIST ELIMINATORS

Improve compressed air system quality and efficiency while reducing costs

KEY BENEFITS INCLUDE:

- Low Operating Cost – Pressure drop less than 1 psid
- Extended Element Life – Up to 10 years in normal use
- High Efficiency Filtration – 1 micron nominal rating
- Effective On Commonly Used Lubricants – Mineral and synthetic
- Minimal Maintenance – No yearly element replacement life
- Standard Differential Pressure Gauge – Maximize element life

Mist Eliminators

- Mist Eliminators are a large, typically floor mounted filter rated for 1 micron nominal rating. The filter element should have a life expectancy of 5 to 10 years. The rated pressure drop over the life of the element should be less than 1 psig.
- Rebates for Mist Eliminators are \$3 per rated CFM.
- Mist Eliminators that are not eligible via the prescriptive offer can be submitted via the Custom Efficiency program for preapproval since a utility evaluation and analysis is required prior to equipment purchase and installation. Complete requirements at xcelenergy.com
