

**SCHEDULE YOUR FREE EVALUATION**

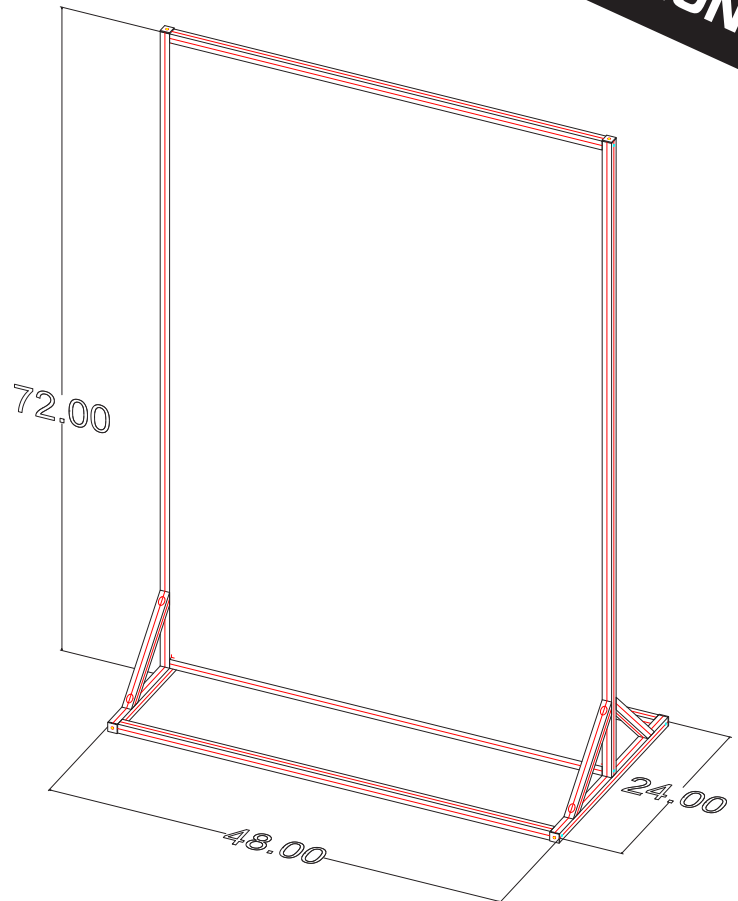

## CONTINUING YOUR BUSINESS IS OUR BUSINESS

### With 80/20 Aluminum and Plexiglass Protective Breathe Barriers and Sneeze Guards

Whether your protection needs to be between humans, food or in the workplace, our protective barriers serve the same purpose. They provide you with the solution you need and can be tailored to your needs.

#### OUR LOCAL TEAM OFFERS:

- A free evaluation of your existing environment and equipment. This can be done over the phone or onsite.
- Tailored 80/20 t-slot framing builds that fit with what you already have to maximize the safety of your staff.
- Strong, durable and flexible products available for the long term.
- Design engineers who evaluate and create customized systems and offer services like design assistance, custom machining, kit packaging and support to build your application, and provide AutoCAD™ and Solidworks™ drawings of the application.

#### CONTACT US:

JHFoster is in this with you during these unprecedented times. Our increased stock helps you continue your production and services backed by our exceptional, uninterrupted service.

Contact our 80/20 design team at **800.582.5162** to schedule a free evaluation or for further information regarding our protective breathe barriers and their capabilities.
