

Are Banner's Asset Monitoring Solutions Right For You?

- Do you need real-time insights into your equipment?
- Does unplanned equipment downtime result in lost revenue?
- Are you missing the data needed to evaluate operational performance?
- Do you need local machine data or a cloud-based data service?

ASSET MONITORING GATEWAY WITH SNAP ID™

Get real-time insights into the operation and performance of assets in your facility with Banner's Asset Monitoring Gateway (AMG) with SNAP ID™. By collecting and analyzing data from up to 20 connected sensors, the Asset Monitoring Gateway helps you make informed decisions about an asset: decisions that can increase productivity, save energy, and prevent unexpected downtime and maintenance. The gateway features a user-friendly, no-code setup and the ability to automatically recognize an array of compatible wired sensors. Easily select sensors that fit your application and monitor almost any asset in your facility.

ADVANTAGES ASSET MONITORING GATEWAY WITH SNAP ID™

- Collects and provides data from nearly any asset
- Measures vibration, differential pressure, temperature & humidity, tank level, and more
- Quick and simple deployment
 - User-friendly setup
 - Automatic sensor recognition
- Real-time data access for maintenance and production teams
 - Make informed decisions, plan maintenance, and maximize uptime
- Monitors equipment like conveyors, fans, pumps, motors, and more
- Access data locally using the onboard touchscreen display or remotely via Banner's Cloud Data Services platform

WHY CHOOSE US?

Sensors Incorporated, a Tavoron company, supports industrial sensing applications with machine vision, process control and monitoring, barcode scanning and safety technology. Their extensive product knowledge, multi-industry experience and their ability to deliver products in a fraction of the time of their competitors make them a trusted partner for industrial sensing needs.

INDUSTRIES

- Food and Beverage
- Steel
- Plastics
- Automotive
- Material Handling
- Packaging

Tavoron is the holding company of Sensors Incorporated, an authorized distributor of Banner Engineering.
